

JAVA TEST – QUESTIONS WITH ANSWERS

1) Array question – contains is not there in arrays.

Answer: Arrays do not have contains(); only lists have it.

2) How to retrieve stream?

Answer: list.stream() or Arrays.stream(array)

3) pom.xml contains?

Answer: groupId, artifactId, version, scope, dependencies, plugins.

4) Annotation that executes after test?

Answer: @AfterEach (JUnit 5) or @After (JUnit 4). After all tests: @AfterAll.

5) Assert equals for array?

Answer: assertEquals(expected, actual)

6) PreparedStatement usage?

Answer: PreparedStatement ps = con.prepareStatement("select * from emp where id=?");

7) Import SQL?

Answer: import java.sql.*;

8) Keyword used for constant?

Answer: final

9) Method reference (::) used for?

Answer: Static methods, instance methods, constructors (not private externally).

10) Default location of Maven repo?

Answer: C:/Users//.m2/repository

11) hashCode() returns?

Answer: int

12) Company/printer question?

Answer: Good design → loose coupling, high cohesion.

13) Duplicate keys?

Answer: HashMap does not allow duplicate keys.

14) JDBC connection?

Answer: DriverManager.getConnection(url, user, pass)

15) compareTo(Object o)?

Answer: Negative/0/positive based on comparison.

16) Comparable vs Comparator?

Answer: Comparable → compareTo(), Comparator → compare()

17) TreeMap order?

Answer: Natural sorted order.

18) Duplicate + natural order?

Answer: TreeSet

19) finally behavior?

Answer: Always executes (except System.exit).

20) Tight coupling, low cohesion?

Answer: Bad design.

21) Not included in exception handling?

Answer: exception access

22) User-defined exception type?

Answer: Usually checked exception.

23) Interface method cannot be?

Answer: final

24) Cat is a jumper, dog is an animal, beagle is a tail?

Answer: Beagle is a dog breed, not a tail.

25) Old/new project?

Answer: Both aiming at different objects.

26) Class static vs non-static variable?

Answer: Compile-time error accessing non-static variable from static method.

27) Method signature?

Answer: method name + parameter list

28) do-while 'y'?

Answer: Error (expects boolean)

29) Access sequence?

Answer: private < default < protected < public

30) Primitive to wrapper automatically?

Answer: Autoboxing

31) Constant variable keyword?

Answer: final

32) Arrays.asList(arr) size?

Answer: Output = 1 (primitive array counted as one object)

33) (::) reference?

Answer: Static, instance, constructor (not private externally)

34) @Ignore?

Answer: Exists in JUnit (used to skip tests).
